

Volunteer with Us!!

Although we do not charge a fee to volunteer with us, we do ask that you do contribute for your food and shelter with us.. It costs us 15 US a day to feed and house you. At present time we lack funding to feed you and to carry out our projects in a sustainable manner. At SIDR we believe you ,the volunteer are a valuable resource and deserve to be well fed after a long day of hard work.

Our aim is to provide Haitians with permanent homes, which cost 3000.US to build.

If you really believe in making a change and lack a 3 month time commitment.. Could you fundraise a home for a family ? And come meet the family and be a part of the build !!

Tangible results and great satisfaction ,knowing you have changed a Haitian family's life forever.

However you wish to join us in this effort to make a lasting change, We welcome you to the SIDR family!!!

Currently we are also looking for teachers , or people who have completed a Tesol course with some time to spare. Haiti has no free schools and is very expensive. We are looking to set up a free school teaching English as a second language to better equip Haitians , ensuring a brighter future.. If you have a month or better to volunteer.. Please contact us
